3. Re para 3 ██████ 1744 and para 4 ██████ 1611 re HTA 3 office furniture

and equip., ██████ base received cable this date from USAFE asking if base

requisitioned supplies from depot on priority basis and base replying

affirmative. Therefore ██████ earlier assumption USAFE wld take action

procure Germ. seems erroneous. Since ██████ experience that unless depot

has supplies on hand 90-120 day delay usually ensues, probable that

HTA 3 office furniture and equip will be received in distant future

since our understanding depot stocks depleted.
